Operation

12V/24V Power Plug

FUNCTION AND ACCESSORIES

European compressor technology,
up to -18°C.

Cubigel company, founded in 1962, has 59 years of Compressor R & D and manufacturing history, and serves international famous brands such as Coca Cola / neagle / univerfer / peps. It is the fourth largest manufacturer of light commercial compressors in the world, with a global compressor share of about 10% and a market share of more than 20% in Europe;

Powerful Freezing, 15 minutes to 0°C.,
40minutes to -18°C.

Intelligent temperature control, cooling range (-18°C to +10°C.), super insulation 72hrs, ECO & Turbo dual mode, meet different use environment

Anti-Shake, Anti-Bumps

The unique compressor automatic protection device is not afraid of frequent start-up of the car. Even if the car is inclined at 30 degrees, it still operates stably (according to the laboratory test data) to meet the normal use in the harsh environment such as turbulence / vibration / extreme cold and heat for a long time

Real time intelligent monitoring of
vehicle battery voltage

According to the starting voltage requirements of different models, different battery voltage protection values are set to ensure the safety of vehicle starting and vehicle battery

SPECIAL ACCESSORIES FOR CAR REFRIGERATOR

2.5m DC power cord connected to cigarette lighter

100-240V home use adaptor

62400mah lithium battery

Protective cover

QN75/QN95

Dual Temperature Control

Metal Handle

Roll-Bond Evaporator
